Summary

Senior Software Engineer with strong skills in Front End and Full Stack technologies including JavaScript, React.js, TypeScript, Node.js, Python and GraphQL. Mentor and technical leader who excels in building collaboration among cross functional teams.

Experience

Senior Software Engineer

Zillow

Aug 2016 - Present (7 years)

Work on the development of Zillow Group rentals apps including: Zillow Rental Manager, Renter's Insurance, Payments, Applications and Leases. Created an admin tool to show the status of the policies, reports and all information related to landlords. This tool was written from scratch using React.js, TypeScript, Node.js, React Query, React Table and GraphQL.

Senior JavaScript Engineer

Trulia

Dec 2014 - Jul 2016 (1 year 8 months)

Responsible for developing and maintaining Trulia rentals web pages and mobile web apps. Led the front end development for an initiative that started as a hack week project to show rentals near a transit station (used React.js, Node.js, ES6, Webpack).

Front End Web Developer - Studio Tools

Pixar Animation Studios

Oct 2011 - Oct 2014 (3 years 1 month)

Developed web applications for the Studio Tools group. Developed and maintained a Content Management System to host videos, pictures and assets of all the different movies produced at Pixar. This system was written in JavaScript and Ext JS on the frontend and Python on the backend. Provided technical support to directors, producers, animators and artists at the studio.

Front End Web Developer

Wells Fargo

2009 - 2011 (2 years)

Developed web applications using JavaScript, HTML, CSS and a framework built on the top of the YUI library. Created responsive web pages for various bank applications.

Software Engineer

Yahoo

2006 - 2009 (3 years)

Worked on Yahoo! Answers, Yahoo! Video and on the online advertising team. Developed and maintained tools using JavaScript, HTML, CSS. Incorporated the Yahoo! YUI library to various applications.
